

SAVAGE® *Innovative* **Supply Chain** **Solutions**

Transloading

Transloading is a cost-effective and environmentally friendly method to realize the benefits of rail freight without onsite rail access. Savage is an industry leader with over 50 transload terminals throughout the United States. Savage specializes in safely handling a diverse range of chemicals, resins, fuels, food-grade products and industrial commodities.

Transportation

Savage's experienced drivers safely deliver each load with worry-free consistency. Our modern fleet minimizes environmental impact and ensures reliable service. With a broad range of specialized equipment, we provide transportation solutions to meet your needs.

Toll Processing

Our ISO-9001 certified toll processing operation converts raw materials into finished products using highly automated, process-specific blending and mixing equipment. Toll processing provides a cost-effective solution that reduces environmental impact while optimizing your supply chain.

Technical Services

Our team of industry experts and engineers design and operate handling and processing systems that create value for you and solve your unique challenges.

Savage is a North American leader in providing services to chemical, railroad, electric power generation, coal mining and oil refining customers. **Savage** has 170 operations in 41 US states and several international locations.

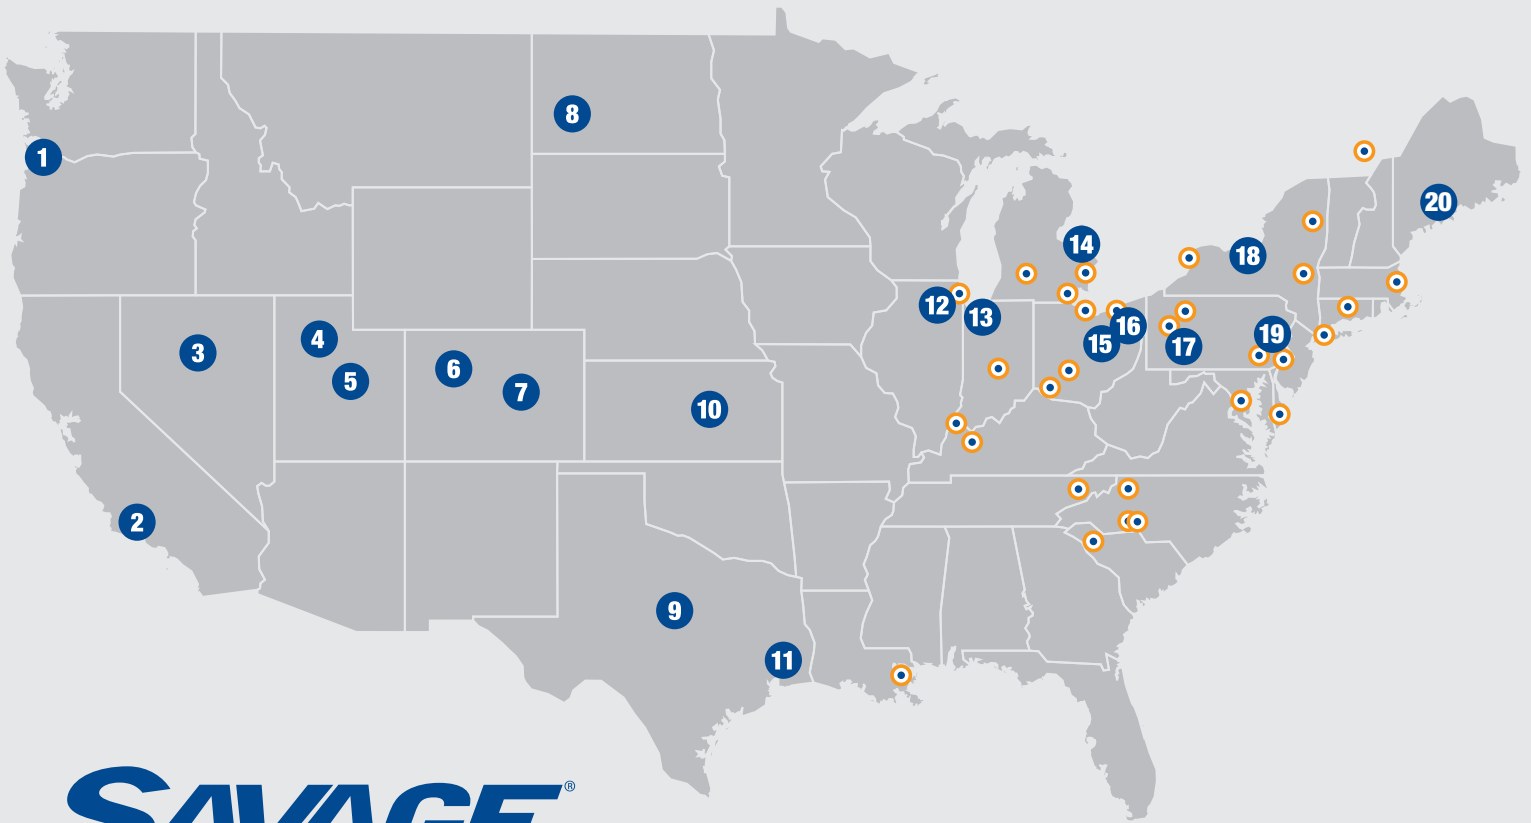

Savage is an *Innovative Supply Chain Solutions* company, dedicated to creating value for its customers who depend on it to move and manage critical materials with worry-free consistency.

Savage is organized into four business groups:

- Power & Mining Solutions Group
- Railway Industry & Chemical Solutions Group
- Refinery Solutions Group
- Oil & Gas Solutions Group
